

### **Rugby/Soccer Combo Goals - Junior**

*The soccer goals are 4m x 2m with the rugby posts sitting at a crossbar height of 2m and the uprights at 3730mm apart. The Junior Goals are supplied in a Galvanised Finish. Ground Sockets and Soccer Nets are included. Crossbar is at 2m High and the top of the Rugby Posts are nominally 5.2m above ground level.*

### **Components**

- 4 x Uprights
- 4 x Sockets (600mm)
- 2 x Cross Bars
- 4 x Rugby Extensions
- 4 x Net Extensions
- 16 x Bolts

### **Instructions**

1. Once Sockets are Concreted in - Make sure to allow the correct amount of time for sockets to cure.
2. Starting on one side of the Field Stand the uprights into the sockets making sure that Nut and flat plate are facing backwards and the white buttons are facing outside of the play field.
3. Lift The Cross bars to line up with the uprights and lower making sure they both slide in straight.
4. Using 8 of the bolts supplied fasten to attach the cross bar securely.
5. Lift the Rugby Extension piece and slot into socket above cross bar, Use the remaining bolts to fix in place.
6. Now that the units are standing Attach Net extensions to the back of the goal and using tec screws supplied attach accordingly. Your frame is now assembled.
7. Place net on coming from the back of the goal and attaching to the White Bunji buttons attached to the frame.

Repeat on other end
